

# Combating Contamination

## RSSL Roadshow

**28 February 2012**

**Bristol**

**A FREE seminar for the Food,  
Drink and Related Industries**

Protecting consumers and your brand is paramount to any business, providing you with answers to your product contamination issues is where we can help. This event is a unique opportunity to learn more about how to minimize the risk of contamination and network with industry colleagues.

What is your issue?

- Accidental or deliberate contamination
- Consumer complaint
- Production or processing contamination
- Product substitution or adulteration

# Combating Contamination

We are the most trusted specialist laboratory of choice when investigating contamination issues.

On 28 February 2012 we will be hosting a seminar to show how we can help you maintain the integrity of your product.

The seminar will focus on the issue of product contamination and provide a valuable insight into how you might approach an incident. In just one morning, we will help answer the questions you might be asking with an overview of resources and techniques available including:

- Do I have a contamination issue?
- What is the contaminant and how much is there?
- Is there a risk to my consumer?
- How did the contaminant get there?
- Why did it happen?
- How can I stop it happening again?

During and after lunch you will have the opportunity to network with fellow industry professionals and share ideas.

Customer Focused, Science Driven, Results Led
