

A background image showing three people (two men and one woman) in a meeting. They are standing around a glass wall covered with colorful sticky notes. One woman is pointing at a sticky note. The text 'Pharmaceutical Lead Auditor training' is overlaid on the image.

Pharmaceutical Lead Auditor training

Courses accredited by IRCA. QMS Lead Auditor and GMP PQS Lead Auditor.

Are you looking to improve your auditing skills? Take the next step in your career and become internationally recognised as a qualified Lead Auditor!

Our five-day IRCA-certified pharmaceutical lead auditor courses are industry-leading. We've trained hundreds of pharmaceutical professionals, helping them to plan and conduct efficient audits with confidence. Apply today and gain the knowledge, tools and understanding you need to succeed as a world-class auditor.

RSSL are unique in presenting two IRCA-certified Lead Auditor courses to meet your diverse pharmaceutical auditor needs. At the core of both courses is a highly participative learning experience on tried and tested international audit standards. Choose the right scope depending on your auditing needs:

- QMS Lead Auditor for the Pharmaceutical Industry (PR330)
- GMP PQS Lead Auditor (PR325)

What you will gain

- Knowledge on how to plan, conduct and follow-up audits with greater structure and confidence
- Skills to define clear audit criteria and standards that help your auditees to provide you with the right evidence
- Practical experience on how to present opening and closing meetings and present audit findings that are clear and unambiguous for the auditee
- Our highly participative courses help you practice highly realistic training audits in a safe learning environment

Our tutors are experienced subject matter experts, with hundreds of hours personal audit experience - so you learn from the best!
