* Please note to cover the criteria set out in the QP study guide, both Part 1 and Part 2 should be attended. All prices are exclusive of VAT, which will be charged at the standard rate. Information is correct at the time of going to print. RSSL reserve the right to make any changes that may become necessary.

Due to the Covid-19 situation, all training courses will be run online until July 2020. This is subject to change as we continue to evaluate the safest way to deliver our courses to you.
What technical skills do I need as a Qualified Person (QP)?

*Please note: Technical skills set out in this guide are in addition to the requirements of the QP Study Guide

**RISK MANAGEMENT**
- Maintenance of Risk Register
- Application of Risk Management e.g. FMEA
- Use of Risk Assessment for issue management

**DOMESTIC AND INTERNATIONAL STORAGE AND DISTRIBUTION**
- Effect of temperature / humidity on products
- Control for storage and transport
- Supply chain maps
- International shipping legislation

**LEGAL FRAMEWORK**
- UK and EU medicines legislation (human and veterinary)
- UK/EMA/ICH guidelines
- Product and site licensing requirements
- All other relevant guidelines

**PRODUCT KNOWLEDGE**
- The medicinal chemistry of products made by your company
- The disease(s) and patients being treated by these products
- Other product types (to allow extrapolation)

**PHARMACEUTICAL MANUFACTURING**
- Manufacturing and control of your products e.g. tablets and capsules or sterile injections
- Knowledge of other product types (to allow extrapolation)

**INFORMATION TECHNOLOGY (IT)**
- IT infrastructure and programmes relevant to validation and Data Integrity
- Business management application e.g. SAP, ERP
- Data capture applications e.g. LIMS, BMS
- Routine applications e.g. MS Office

**CHEMICAL AND MICROBIOLOGICAL TESTING**
- Active substance and excipients
- Packaging materials
- Finished products

**PHARMACEUTICAL QUALITY SYSTEMS (PQS)**
- Able to set up systems from scratch
- Full oversight of system through KPIs/metrics
- Reporting to senior management

**PEOPLE MANAGEMENT**
- Employment law
- Resource management
- Capacity planning
- Delegation
- Performance management

**PROJECT MANAGEMENT**
- Project planning and scheduling
- Dependencies
- Resourcing
- Reporting

**DATA ANALYSIS AND INTERPRETATION**
- Performance analysis KPIs / metrics
- Statistical process control
- Analytical data calculation / understanding

**DOMESTIC AND INTERNATIONAL STORAGE AND DISTRIBUTION**
- Effect of temperature / humidity on products
- Control for storage and transport
- Supply chain maps
- International shipping legislation

**PROJECT MANAGEMENT**
- Project planning and scheduling
- Dependencies
- Resourcing
- Reporting

**PEOPLE MANAGEMENT**
- Employment law
- Resource management
- Capacity planning
- Delegation
- Performance management

**DATA ANALYSIS AND INTERPRETATION**
- Performance analysis KPIs / metrics
- Statistical process control
- Analytical data calculation / understanding

**LEGAL FRAMEWORK**
- UK and EU medicines legislation (human and veterinary)
