

RSSL CPD DAY

Product Quality Review - Best Practice

28 January 2019 - Reading

On the 28th January 2019, we will be running a CPD day, with a selection of workshops to discuss the requirements of the Product Quality Review (PQR) for medicinal products and Active Pharmaceutical Ingredients (APIs). The course is designed for:

- QA Managers
- Laboratory/Production Managers
- Trainee/Qualified Persons
- Regulatory/Quality Professionals

An annual PQR is a mandatory requirement for all marketed medicinal products in the European Economic Area (EEA) and for all API used in these products. Done well the PQR can identify potential issues, process improvements and cost savings. Done badly this can lead to critical regulatory inspection findings and potentially impact patient safety.

This one day workshop will enable you to:

- Understand current regulatory requirements
- Understand report content
- Manage the process of collating PQR sections from multiple sites
- Use basic statistics
- Document conclusions based on data, trends and statistics

The cost to attend is £495 + VAT
