## In-House Training at Your Site

All of the courses on our 'open' schedule can be run for you on site or at another location of your choice, which means that:

- A number of staff can be trained at the same time, saving on individual course fees and ensuring a consistent message
- There are no employee travel and accommodation costs
- By tailoring the course, you only pay for the level of content and degree of expertise required for your particular needs, and nothing else
- You have the opportunity to continuously relate issues to your own company situation

In addition to our open programme, our extensive base of industry specialist tutors and consultants means that we can design and run a bespoke course and provide consultancy support on a much wider range of topics dependent on your needs, including:

- Regulatory Readiness
- ICH Q7, ICH Q8, ICH Q9 and ICH Q10
- Stability
- GMP for Engineers
- Refresher GMDP/GDP Training
- APIs and Excipients
